## All Arguments Favor Southern Route

In a letter to the different automobile associations throughout Southern Alberta and British Columbia, Dr. Bonnell sets forth the following arguments in favor of the southern route for the National Highway:

"I understand that there is considerable agitation in Calgary and the surrounding district, and perhaps Golden and Banff, that the main Dominion trunk highway be run from Calgary to Golden and then down through the Larder to the coast, and I believe that representations are being made in Ottawa. There is not, of course, the slightest question, but what the Dominion highway should go through the Crows Nest Pass, and I am going to give you a few reasons, some of which you might not think of in laying the matter before the department.

1. The road through the Pass would start at Medicine Hat, and come through the following, among other places: Medicine Hat, 15,000; Three Persons, 500; Taber, 800; Lethbridge, 15,000; Macleod, 2,000; Pincher Creek, 2,000; Cowley, 300; Frank, 500; Blairmore, 2,500; Coleman, 2,500; Crows' Nest, 200; Michel, 2,000; Hosmer, 100; Ferrie, 5,000; Elko, 500; Jaffray, 300; Warner, 2,000; Cranbrook, 4,000; Moyie, 500; Nelson, 6,000. I am not aware of the exact route it would take west from Nelson, but whichever way they go the road would go through a number of important places.

2. The road is already built to Kootenay Landing and with a small expenditure would be made for its whole length one of the best roads in Canada.

3. The land is open to settlement throughout this entire southern district, and with the land settlement question, by-products, ovens and other things this part of the province will progress, whereas there can never be the slightest hope of the northern route through Calgary and Banff ever becoming any better as regards population.

4. Calgary is only one hundred miles from Macleod and there is a good road and Calgary people can get to the coast, as far as I understand it, by a shorter route coming this way than by going the route at present.

5. The only reason Calgary could possibly ask for the road is for the tourist trade between Calgary and Banff, and they are getting this at present as they have a good road to Banff.

6. It is proposed to build a road from Banff to Windermere and this would allow Calgary and other places on the main line to take the southern route by two directions, that is, by Macleod and by Banff.

7. The southern route is a great deal more handy for Americans touring Canada, which they have done in great numbers and will do in increasing numbers, and this route is handy to the American highway which is now being connected at two or three places in the States by a good road, and if the road is extended from Kootenay Landing west it will enable Canadians to tour either through America or Canada by almost the same mileage.

8. The railway will shortly be built from Western to Lethbridge, and as this country is fast settling up and becoming one of the most prosperous farming districts in Canada, it will mean that there will be a southern route to Weyburn and east and also a main-line route so that people from Winnipeg and other points in Manitoba and Saskatchewan will be able to take either the southern road straight through or the main line through to Calgary and then down to Macleod.

9. The northern road, I am told, is expensive to build and it would cost the Dominion government millions of dollars to put a proper road through, and in order that this entire district from Nelson east could get to the coast they would have to either go through the States or away around to Calgary and then out to the coast.

10. As I said before, I am satisfied Calgary could get to the coast by our route with shorter mileage than they could by their proposed route, and the government should therefore consider the large population in this southern country as opposed to the sparsely populated country on the northern proposed route.

I think it would be as well for you to get busy on this matter as there is a great deal of feeling throughout this district and we who have lived in the country for a number of years know that the proposed northern route as opposed to the southern route is absolutely absurd and can only be justified on the ground that Calgary is a large place, but why it should bog everything at the expense of the balance of the people is beyond my comprehension."

### Catonic Sent Up For Trial

G. B. Catonic was taken in charge by the city police this afternoon. Catonic has been acting strangely of late and it has been necessary to keep a pretty close tab on his actions. On several occasions he has been known to leave his place of business with a loaded rifle, stating that he intended to hunt somebody. At the time of his arrest he was in the act of washing his hands preparatory to taking lunch, and so strongly resisted arrest that it required the whole police force, together with twice as many special constables to land him in the cooler.

Catonic came up for hearing this afternoon before F. M. Pinkney, J. P., charged with having on or about the 15th day of April had in his custody or possession, or carried an offensive weapon, to wit: a loaded rifle, for a purpose dangerous to the public peace, contrary to Section 115 of the Criminal Code of Canada.

L. H. Puinam appeared for the accused, and J. M. Carter for the Crown and the town.

Witnesses examined included Miss Stewart, Messrs Fred Gaven, Alex McVeay, Abel Hovis, Alex Morency, Alfred Link, Mark Sartoris, George McCollom, all for the prosecution; and Catonic, Bazoli, of San Francisco, California; George G. McCollom, of Carlton, New Brunswick; Frank Wright, from Manchester, England; Lloyd Evans from Mowbray, Wales; Bill McVeay and Shorty Glasco, from the North of Ireland; sixteen Italians, a Norwegian, three Swedes, eleven returned veterans, two Finns, six Bohemians, two lawyers, four commercial travellers, a preacher, thirteen Nova Scotians and about twenty white men.

From the evidence it was gathered that Catonic had been acting strangely for some little time, and his actions of late have been such as to create a sense of fear in the more timid citizens. He had gone so far as to procure a rifle and ammunition and to threaten the lives of peaceable citizens, and on one occasion threatened to get Chief Carter and the provincial police.

After hearing all the evidence, which occupied eight and a half hours, His Honor committed Catonic for trial at the next sitting of the criminal assizes at Macleod.

Catonic will be taken to Lethbridge provincial gaol on Friday night, His Honor committed Catonic for trial at the next sitting of the criminal assizes at Macleod.

This case seemed to have aroused considerable interest. All thru

S. Trono,

Blairmore

In the case the specimens (?) municipal office was packed to the doors. In looking around the corridor and walls we espied Mike Rose, the honorable chairman of the Blairmore police commission; Mayor J. G. Ewan; Sir Cattano Bazoli, of San Francisco, California; George G. McCollom, of Carlton, New Brunswick; Frank Wright, from Manchester, England; Lloyd Evans from Mowbray, Wales; Bill McVeay and Shorty Glasco, from the North of Ireland; sixteen Italians, a Norwegian, three Swedes, eleven returned veterans, two Finns, six Bohemians, two lawyers, four commercial travellers, a preacher, thirteen Nova Scotians and about twenty white men.

The Bellevue choir will present their new cantata, "The House of David," at the Union church on Wednesday evening next, commencing at 8 o'clock sharp. Collection will be taken.

Mrs. Mary Thomas died at Calgary last week. It will be remembered that Mrs. Thomas came to Blairmore during the fall epidemic to act as nurse, and was taken ill, necessitating her return to Calgary in a few days. She took action against the Towns of Blairmore to collect for the full time she was away from Calgary, including the period of her hospital confinement here, the town agreeing only to pay for actual nursing services and transportation from and to Calgary. We understand now that the action has been dropped.

## Central Union Church

Service on Sunday at 7:30 p. m.  
Sunday School at 2:00 p. m.  
Oddfellows' Centennial Anniversary Service at 3 p. m.

REV. W. T. Young, Pastor.

A grand dance will be given by the Bohemians in the brick hall at Frank on Easter Monday night.

# Haig Tells How Victory Was Won

London.—Field Marshal Sir Douglas Haig in his final dispatch, just made public, presents a view in detail of the expansion and achievements of the British army, with many remarkable facts and figures. He treats the operations of the western front as a single continuous campaign, in which can be recognized the same general features and necessary stages that, between forces of approximately equal strength, have marked all the conclusive battles of history.

"The high water mark of our fighting strength in infantry," says the British commander, "was only reached after two and a half years of conflict, by which time heavy casualties had already been incurred. It was not until midsummer, 1916, that the artillery situation became even approximately adequate to the conduct of major operations."

During the Somme battle, artillery ammunition had to be watched with the greatest care. During 1917, ammunition was plentiful, but the gun situation caused anxiety. It was only in 1918 that artillery operations could be conducted without any limiting consideration beyond that of transport.

"The margin with which the German onset of 1916 was stemmed was so narrow, and the subsequent struggle was so severe that the word 'miraculous' is hardly too strong a term to describe the recovery and ultimate victory of the allies."

"The breakdown of Russia in 1917 probably prolonged the war by a year, and the military situation in Italy in the autumn of 1917 necessitated the transfer of five British divisions to Italy at a time when their presence in France might have had far-reaching effects."

Sir Douglas records the interesting fact that more than half the British casualties in the fighting of 1918 occurred during the five months from March to July, when the allies were on the defensive.

"The rapid collapse of Germany's military powers in the latter half of 1918," he says, "was the logical outcome of the fighting of the previous year, which would not have taken place but for that period of ceaseless attrition which used up the German reserves. It is in the great battles of 1916 and 1917 that all have to seek for the secret of our victory in 1918."

The value of cavalry in modern war is emphasized by Sir Douglas Haig, and, in discussing the value of mechanical conveniences such as tanks, he observes that, immense as tanks' influence might have been, they could not by themselves decide a campaign. Their true role is to assist infantry by whose rifles and bayonets only can decisive victory be won.

The expansion of British personnel, artillery, ammunition, transport, railway construction, and establishments of every kind in France is dwelt upon by the field-marshal. Regarding machine guns, the British equipment increased from one gun to 500 infantrymen in 1914 to one to twenty infantrymen in 1916. The 486 pieces of artillery, with which the British took the field in 1914, were represented at the date of the armistice by 6,437.

On the first days of the Somme battle of 1916, nearly 13,000 tons of

## Hungary Can Pay Debts

Paris.—The mission to Hungary headed by General Jan Christian Smuts, has reported on the prospect of the payment by Hungary of her debts. The impression gained by the commission, the report states, was that there might be some chance of adjustment through friendly negotiations. Otherwise, it was added, it was difficult to see any chance whatever.

artillery ammunition were fired by the British on the western front. On two days, September 20 and 21, 1917, 42,000 tons were expended, and in the three days of the crucial battle on September 27, 28 and 29, 1918, nearly 65,000 tons were fired by the British.

Sir Douglas says that the feature of the war, which to the historian may well appear most noteworthy, is the creation of the new British army, which was successfully built up in the very midst of the war.

"The total of more than 327,000 German prisoners captured by us on the western front," says Sir Douglas, "is in striking contrast to the force of six divisions, comprising some 80,000 fighting men, with which we entered the war. That we should have been able to accomplish this stupendous task is due partly to the loyalty and devotion of our allies and to the splendid work of the royal navy, but mainly to the wonderful spirit of the British race in all parts of the world."

## Veteran Tells of a Terrible Experience

Before He Found Relief in Dodd's Kidney Pills

Postmaster of Hereford Points the Way to Health for Other Sufferers From Kidney and Bladder Trouble

Hereford, Que., April 14. (Special to The Enterprise.)—The postmaster here, is one of the many old people who claim to have received a new lease of life through the use of Dodd's Kidney Pills.

Mr. Poole is in his 84th year, but wonderfully strong and active for one of his age. But he was not always thus. "For six years" he says, "I telling myself I suffered from kidney and bladder trouble. I had those sharp, streaky, lightning pains through my muscles, even to my finger tips."

"In March, 1917, I was taken with a shaking 'chill' and deadly pains through my abdomen, groins, and the small of my back. I was confined to bed for three weeks, during which time I often had to get up as often as twenty or thirty times a day."

"I tried many remedies, but got nowhere. I tried Dodd's Kidney Pills. In three boxes I took relief, and three boxes cleared all the pains out of my system. I also rest much better at night."

Ask your neighbors about Dodd's Kidney Pills.

Newest Republic

London.—The proclamation of a Soviet republic in Salzburg, Germany-Austria, is reported in an Amsterdam dispatch to the Central News.

## Ex-Kaiser Will Be Brought To Trial

Paris.—The responsibility of the German emperor for the war and the means for bringing him to trial by one of the allied governments, probably Belgium, had been definitely decided upon by the council of four. This follows the definite decision on the terms of reparations for war damages, whereby \$5,000,000,000 must be paid within the next two years, and an international commission assess the claims for a period of thirty years, beginning May, 1921.

Thus, two of the great obstacles which stood in the path of the rapid attainment of peace have been removed, and the period of extreme tension over the inaction and the failure to secure tangible results is succeeded by revised confidence over the great advance towards a permanent settlement.

The council of four has reached an agreement on the Saar valley. The valley unchanged, but accord to agreement leaves sovereignty over France free of duty sufficient coal for the Lorraine iron industry, and to replace the production of the mines' tribunal.

## MAY FEED RUSSIA

\$2,000,000 Monthly Required For Carrying Out of Problem

London.—Herbert Hoover, director-general of the inter-allied relief organization, has requested Dr. Friedjot Nansen, head of the Norwegian food commission to the United States, to become chief of an international commission to investigate the possibility of feeding Russia on condition of the cessation of hostilities in Russia.

The dispatch says that £10,000,000 monthly will be required for the carrying out of the problem.

Amsterdam.—The visit to Paris of the Dutch financier Van den Heuvel and Ter Meulen, a local news agency says, has reference to the conclusion of a loan by neutral states to Germany of \$200,000,000. The loan is to be made under the supervision of the allies, and is for the purpose of restoring the economic situation in continental Europe. Swiss and Scandinavian bankers, it is added, are participating in the negotiations.

## FARM LABOR SCARCE

Working Conditions and Wages Are Both Good

Winnipeg.—There is a shortage of farm labor in the province this spring, it was learned at the Dominion-provincial employment service bureau here. There is much more demand for farm help than there is labor available, and the requests for men have been sent to Vancouver and other Pacific cities, as well as to St. John and Halifax.

Working conditions on the farms are good, Mr. Bowman announced, and farmers are paying \$60 and \$65 a month.

### In British Soil

London.—Arrangements are being made, it is understood, for the removal of the body of Edith Cavell, the English nurse, executed by the Germans at Brussels in 1915, to the British soil. The interment of the body in continental Europe, Swiss and Scandinavian bankers, it is added, are participating in the negotiations.

Washington.—Credits of \$6,300,000 to the Czecho-Slovak republic and \$900,000 to Belgium were established by the treasury. The Belgian credit raised the total loans to the allies to \$10,016,230,000, and the total to Belgium to \$341,435,000.

## Trouble in Egypt Takes Serious Turn

### U. S. Credit to Belgium

Washington.—Credits of \$6,300,000 to the Czecho-Slovak republic and \$900,000 to Belgium were established by the treasury. The Belgian credit raised the total loans to the allies to \$10,016,230,000, and the total to Belgium to \$341,435,000.

Brazil and Britain Sign Treaty

Washington.—Advices from Rio Janeiro to the state department report that an arbitration treaty has been signed by Brazil and Great Britain.

London.—Reuter's learns that some apprehension is felt that the trouble in Egypt, which was fomented at the beginning entirely by Nationalist sentiment, may take a religious turn and that the native tribes may declare a holy war against the British empire.

There is reason to believe that the natives may have been affected by Turkish propagandists, who are in no way friendly towards Britain. Steps are being taken to deal with this possibility.

The official press bureau issued the following statement:

"General Allenby reports that a new ministry has been formed in Egypt with Hussein Ruchi Pasha as president of the council."

"The provinces are quiet, but demonstrations by the peasants have occurred at some places. There were disturbances in parts of Cairo on April 9, the feature being hostility towards Armenians by parties of roughs."

## Why Can't I Get To Sleep?

Thousands of people all over the country ask this question, but still continue to toss night and day, or sleep but half, and it is impossible for them to get a full night's refreshing sleep.

Some constitutional disturbance, worry or disease has so debilitated and irritated the nervous system that it cannot be quieted except by the pernicious use of opiates or narcotics. Others have had heart palpitation, and sensation of sinking, a feeling you are going to die, or perhaps you wake up at your sleep, and a desire to get up to choke or smother, and the only way you can get relief is to sit up in bed.

Those who suffer in this way Milburn's Heart and Nerve Pills offer an inestimable boon. These bring back the much-needed night's rest by improving the tone of the nervous system, the circulation, the blood and making the whole organization in harmony—then you sleep as peaceful as a child.

Mrs. Jas. Latimer, 39 Leinster St., St. John, N.B., writes: "I could not sleep, used to sit up in bed, my heart beat so fast, and I had to sit up to get all out of breath. A friend recommended Milburn's Heart and Nerve Pills and after using two boxes, I can sleep, but am not out of breath after walking."

Milburn's Heart and Nerve Pills are 50¢ a box at all dealers, or mail-order on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

London Will Observe Anzac Day

London.—On Anzac Day, April 25, there will be a triumphant march of Australian troops through London. The detachment will number 5,000 men, who will march from the West End, passing the Mansion House, where the Lord Mayor will take the salute.

Grain Steamers Will Use Rhine

Berlin.—An arrangement has been made with the allies by which merchandise for Switzerland, coming from across the Atlantic, will pass down the Rhine to Strasbourg or Basel. Consequently the next grain steamers for Switzerland will go to Antwerp.

### Who's In the Bread Line?

There would be no bread lines in the big city if we who live in the country towns did our duty by one another. You and I can do our part to break that bread line—to break up that appalling condition in which men must either beg or starve. Remember: The bread line in the big city is a reflection of the condition in the country towns. But industry can't flourish here if we send our money to build up the big city. If all of us all the time spent all of our money in our home town there would be no bread lines in the big city. Each home town would then take care of its own. Let you and me do our part.

## Troops Threatened Mutiny

American Infantry Refused to Fight

Bonhag, Germany.—The war department has issued an official statement confirming Associated Press' advice from Archangel that what amounted to a mutiny occurred among the American troops there on March 30. A company of infantry, the message stated, refused to entrain for the front until personally required to do so by Col. George Stewart, commanding the American contingent. Open threats were made of a general mutiny unless a definite statement of purpose with respect to the remaining obstacles, notably the Saar valley, the Rhine frontier, the Adriatic issue and a number of lesser issues which are still short of final agreement.

The agreement removes one of the most difficult obstacles to the conclusion of peace.

While the terms have been greatly reduced, it is not entirely removed, as much depends on the continuation of peace with respect to the remaining obstacles, notably the Saar valley, the Rhine frontier, the Adriatic issue and a number of lesser issues which are still short of final agreement.

The agreement on responsibility for the war issue continued to have called for compromise between detailed reports presented by the commission of which Secretary Lansing is chairman. There was a practical agreement on the general responsibility of the German emperor for bringing on the war, but division occurred as to whether it was feasible to bring him to justice before an international tribunal.

## Must Pay For Hotel

Crown Owes Rent for Property Occupied for War Purposes

London.—The court of appeals, by a majority, has allowed the appeal of De Keyser's Hotel, London, in a test action against the crown, who had requisitioned the premises, for payment of rent and for compensation during nine months occupation by the crown.

A company of infantry, the message stated, refused to entrain for the front until personally required to do so by Col. George Stewart, commanding the American contingent. Open threats were made of a general mutiny unless a definite statement of purpose with respect to the remaining obstacles, notably the Saar valley, the Rhine frontier, the Adriatic issue and a number of lesser issues which are still short of final agreement.

De Keyser's hotel claimed \$13,520 sterling for occupation.

Hungary Cannot Pay Food

Berlin.—The shortage of coal, owing to strikes, is given officially as the reason for Germany's inability to continue payments for entente food supplies now arriving, since coal was chiefly relied upon as a means to settle this indebtedness.

The announcement adds that coal production continued to decline, revealing the manufacturers of economic life must collapse before autumn, and the food condition will be worse than ever.

## Fall of Odessa

### Will Aid Bolsheviks

Paris.—The chief cause of anxiety in connection with the evacuation of Odessa by the allies and its occupation by the Bolsheviks lies in the fact that the terrible regions in Southern Russia have fallen into the hands of the Bolshevik forces, giving them immense resources of grain, coal and minerals.

The reason for the allies' retirement was the constantly increasing menace of the Bolsheviks against the allied garrison, which was able to maintain its supplies with greatest difficulty. The commander thereupon decided to withdraw his troops, numbering approximately 50,000. The troops retired to Romania and Constantinople.

The situation in Romania and Poland is far from reassuring, even with these additional troops to help form a cordon against the spread of Bolshevikism. Both Romanians and Poles require the largest measure of aid from the allies providing them with food, military equipment and organization.

It is regarded as essential in connection with the evacuation of Odessa that General Halder's Polish divisions should be present.

It was remarked in semi-official circles that reports received from Russia previous to the evacuation of Odessa had shown Bolsheviks there to be on the down grade, owing to the gradual exhaustion of funds and lack of supplies. But the acquisition of Odessa and surrounding districts by the Bolsheviks has given them a new lease of life and placed in their power the means to crush, temporarily at least, the rising strength of those groups who are contending most vigorously the Bolsheviks' progress.

Statesmen of various countries gathered in Paris, discussed the Odessa question with considerable inquietude and it was explained that it would form the subject of discussion among the delegates to the peace conference.

It was remarked in semi-official circles that reports received from Russia previous to the evacuation of Odessa had shown Bolsheviks there to be on the down grade, owing to the gradual exhaustion of funds and lack of supplies. But the acquisition of Odessa and surrounding districts by the Bolsheviks has given them a new lease of life and placed in their power the means to crush, temporarily at least, the rising strength of those groups who are contending most vigorously the Bolsheviks' progress.

## ACHES AND PAINS QUICKLY RELIEVED

You'll find Sloan's Liniment  
softens the severe  
rheumatic ache

Put it on freely. Don't rub it in. Just let it penetrate naturally. What a sense of soothing relief soon follows! Extended use relieves rheumatic, cramped muscles, strained, aching, back "cricks"—those ailments can't fight the grip of the relieving qualities of Sloan's Liniment. Clean, convenient, economical. Made in Canada. Ask any druggist for it.

**Sloan's**

### Young Settlers During March

Winnipeg — Immigration returns for the month of March, 1919, show a fall in the numbers of settlers admitted to Western Canada in comparison with the same month last year. During March this year, the total number of admissions into all parts of the western districts, from Port Arthur to Kings Gate, was 3,227. Last year there were 4,041. In that month.

Effects coming in last month were valued at \$528,436. The wealth of the settlers this year was \$1,012,248, while last year it was \$1,741,422.

**Signed at Same Desk**  
Berlin — The agreement reached at Spa between the Germans and allied representatives regarding the use of the port of Posen for the conveyance of the victualls of Polish troops from France, was signed at the same desk at which Emperor William sat when he attached his name to the abdication agreement last fall, the Zeitung Am Mittag states.

We build our character by the bricks of habit that we pile up day by day. Each seems a little thing, but before we are aware of it, we have shaped the house we live in.

## Get Your Digestion in Shape

Many ailments are caused by stomach weakness. Faulty digestion leads to biliousness, sick headache, dizziness, sallow skin and eruptions. Maintain a healthy condition of the stomach and you will get rid of the chief cause of your suffering. Do not neglect the laws of health. Keep stomach, liver and bowels in order by timely use of

### Will Handle

#### Land Settlement

Soldier Settler Will Be Practically Outfitted by Board

Prince Albert, Sask. — Soldiers and others here are greatly elated at the decision of the soldiers' land settlement board to establish an office here to handle land settlement for soldiers in northern Saskatchewan where mixed farming is carried on extensively. The decision of the Canadian Northern Railway to construct a line to run 25 miles north-east from the city is partly responsible for the decision, as this road will open up a tract of country well adapted for soldier settlement. The board will interview soldier settlers as to their qualifications to go on the land. It will have an expert valuer, based on the worth of the lands which soldiers may wish to purchase, under the government aid scheme. The soldier settlers will be practically outfitted by the board so far as farming is concerned, and will be protected in his purchases against cupidity on the part of private firms which might wish to take advantage of their inexperience as farmers and stockmen.

I was cured of Acute — Bronchitis by MINARD'S LINIMENT.

Bay of Islands. J. M. CAMPBELL.

I was cured of Facial Neuralgia by MINARD'S LINIMENT.

Springhill, N. S. WM. DANIELS.

I was cured of Chronic Rheumatism by MINARD'S LINIMENT.

Albert Co., N. B. GEO. TINGLEY.

She had the still white form before the children had gone before. No doubt, she sighs from her head daily, she feels it, she pinches it, she pinches the still night air, making it vibrate into a thousand schools. It seemed as if it came from her very soul. Twice the cry was repeated, and then all was quiet again. She would lay another egg tomorrow.

Canada's estimated population is given at 8,835,000.

The most active volcano in the world is Mount Sangay. It is 17,196 feet high, situated on the eastern chain of the Andes, South America. It has been in constant eruption since 1728.

Soft corns are difficult to eradicate, but Holloway's Corn Cure will draw them out painlessly.

The value of property held by alien enemies in Canada is estimated at \$38,000,000.

### It Works Wonders On Catarrhal Colds

Simple as A, B, C to Drive  
Away Cold With

#### "CATARHOZONCE"

When your throat itches, your lungs and chest are sore, your throat is stuffed with cold—don't fear consumption—use Catarh ozone and get well. It clears the throat, eases hacking, eases a tight chest, and relieves soreness, and soon the entire, core, root and all, lifts right out.

This drug is a sticky ether compound, but drives at once and simply shrivels up the core without inflaming or even irritating the surrounding tissue.

It is claimed that a quarter of an ounce of freezeone obtained at any drug store will cure any cold, but it is sufficient to use a small, hard, soft corn, or callus from the foot.

Cut this out, especially if you are a woman reader who wears high heels.

### Polish Premier Cheered

Paris. — Ignace Jan Paderewski, prime minister of Poland, was the centre of a great demonstration, when he appeared in the diplomatic gallery of the chamber of deputies. The president of the chamber read a letter from the president of the Polish constituent assembly, transmitting the greetings of the Polish republic to France. M. Pichot, the foreign minister, expressed friendly sentiments of France. Then the deputies rose in a body and cheered heartily.

### Piles Cured in 6 to 14 Days

Druggists refund money if FAZO OINTMENT fails to cure. Stop Irritation, Soothe and Heal. You can get relief after the first application. Price 5c.

Sir John Cowans, British quartermaster general, is the head of a company which is seeking to develop the oil areas of Alberta.

Edmonton, Alta.—The construction of a \$20,000 public school at East Edmonton is planned by the school board.

### SUFFERING CATS! GIVE THIS MAN

#### THE GOLD MEDAL

Let folks step on your feet, hereafter, wear a size smaller if you like, for corns will never again be a cause of pain through you, according to the Cincinnati authority.

He says, "In a few days of a drug and frictions applied directly upon the aching corns, it relieves soreness, and soon the entire, core, root and all, lifts right out."

This drug is a sticky ether compound, but drives at once and simply shrivels up the core without inflaming or even irritating the surrounding tissue.

It is claimed that a quarter of an ounce of freezeone obtained at any drug store will cure any cold, but it is sufficient to use a small, hard, soft corn, or callus from the foot.

Cut this out, especially if you are a woman reader who wears high heels.

4. Jesus Meets the Women (28:8-10).

The women remained instant obdience and were running to bring word to the disciples. Jesus met them on the way. Those who have an experimental knowledge of Christ should speedily go to tell others of it.

To all such the Lord will appear and bring joy.

5. What Christ's Resurrection Guarantees to Us (1 Cor. 15).

1. The Integrity of the Scriptures (v. 3, 4). The Old Testament Scripture is the record of the ancient, deathless resurrection of Christ. Christ's resurrection gave the seal of authentication to them. Christ rebuked the disciples on the way to Emmaus for their disbelief of the Scriptures, concerning the resurrection (Luke 24:13-26).

2. The reality of the divine person (Rom. 1:4). Jesus claimed to be one with the Father. He predicted his coming forth from the dead (Matt. 16:21). He declared that no one could take his life from him. He had power to lay his life down and take it up again (John 10:15-18). He died because he willed to do so. The life which he laid down must be restored at the completion of his sacrificial work. His coming forth from the grave proved that he was what he had claimed to be.

3. The sufficiency of Christ's atonement (Rom. 4:25). Our sins Christ claimed "It is finished."

By the resurrection God declared to the universe that an adequate remedy for sin had been provided. The resurrection of Christ is God's certificate that an adequate sacrifice has been provided for sin.

4. Our life and immortality (1 Cor. 15:20). He is the first fruits of them that sleep. "Because I live ye shall live also." The guarantee that man in the integrity of his being, spirit, soul and body shall live again is furnished us in Christ's death and resurrection.

5. Want Order Maintained

Paris. — At the latest session of the German cabinet council the government considered the eventuality of making an appeal to the allied armadas to maintain order in Germany, in the interest of the whole of Europe, the Zurich correspondent of the Journal reported.

The newsman said, "L'Espresso" understands that General Humbert, former commander of the French Third Army will be appointed commander of the allied troops in central Europe."

"And you call yourself a lover of peace!" said Mr. Rafferty. "I do," answered Mr. Dolan. "After intentionally dropping the brick on Casey?"

"Yes, I've never known Casey to be as peaceful as he was just after I dropped the brick," — Washington Post.

There is no good and sufficient reason why you should mind your own business if other people will pay you more for minding theirs.

GAINED WONDERFULLY

Mrs. Herbert Hanson, Lower Hainscine, N.B., says: "I have the very best results for Dr. Williams' Pink Pills. Before I took them I suffered greatly with sick headache, dizziness and a feeling of depression and tiredness. A short treatment with them relieved me of all these symptoms and my health is much improved. I have a well, playful child again.

Sick children needn't be coaxed to take this medicine. It is a laxative."

Many of us keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. They also know a little today goes a long way.

Ack your druggist for a bottle of "California Syrup of Fig" and in a few hours all the clogged-up, constipated waste, sour cold, indigest food will gently move out of the bowels, and you have a well, playful child again.

Sick children needn't be coaxed to take this medicine. It is a laxative."

**Cranbrook Auto Club**  
Will Log Route to Coast

The Cranbrook Auto Club are in receipt of several communications from tourists who are planning major trips across the continent through the "Crows' Nest Pass". A list of eighty names of people who are planning such trips has been forwarded by the Pacific Northwest Tourism Association. This list shows addresses all over the United States and Canada, with few others from England and Australia.

The Automobile Club Publishing Company of 900 South Michigan Avenue, Chicago, have requested of the Cranbrook Auto Club regarding the route from Cranbrook to the coast and to the prairies. They state they are anxious for any information from any auto clubs along the route. They are planning to send a scout car this way this season to log the route and any advance information will be appreciated and helpful.

The National Automobile Association, the New England department of the National Highways Association, Park St., Boston, have written to the Cranbrook Auto Club asking for maps of auto routes through Western Canada.

**Canadian Y.M.C.A.**  
Gave Away \$900,000

During the year 1918 the Canadian Y.M.C.A. expended \$225,000 upon athletic equipment which was supplied free to the soldiers. This accounts to a very large part for the unique position of the Canadian Corps as regards athletics among the armies in France. In the same time the sum of \$245,000 was spent in supplying free cinema, concerts, lectures, pianos, gramophones, etc., for the soldiers in France. In addition to these entertainments, mosaics, religious and other items, which cost \$100,000, were given free to the soldiers in France during 1918. While the association charged for the goods sold at its centres, the prices being fixed by the British military authorities, they gave away hot and cold drinks, generally right up close to the front lines where the fighting was heavy, to the value of \$120,000 and in addition turned over \$150,000 to the various Canadian units in France from the canteen profits, the sum to be spent on extra rations and comforts for the men. These items represent free gifts by the Canadian Y.M.C.A. to the boys in France of approximately \$900,000.

**Montaville Flowers**

Montaville Flowers who speaks on May 1st, is founder and was first president of the International Conference of Statesmen and Lecturers held in April, 1918, at Washington, D. C. Addresses were delivered before this conference by the leading statesmen of the world, including the French, Italian and Japanese ambassadors, also Lord Reading of England, and several of the leading statesmen from Canada and the United States.

Mr. Flowers edited the great volume "What Every American Should Know About the War," published in August, 1918, containing the contributions of over forty great masters, including statesmen, soldiers, scholars, ambassadors and officials of Europe and America. No publication has a clearer or fuller grasp of the facts and issues involved in present world affairs. He stands pre-eminent among America's greatest orators for his power to present vital subjects in forcible, logical addresses. His subject, "The Triumph of Democracy," is a message of the hour and a clear expression of the principles and problems now engaging the thought of the world as a sequence of the great war. Every intelligent patriot should hear Montaville Flowers in "The Triumph of Democracy."

Mr. Flowers' tour is being directed by the Dominion Lycéens Ellison-White Service, as was Irvin S. Cobb and many other notable speakers who have appeared in Western Canada recently.

**Programme April 25th**

Come to the dance on Friday, April 25th, and hear the children during supper hour. The following programme will be rendered:

Hawaiian Dance—Miss Graham.  
Sketch, "Prince and Milkmaid"—Lena Fraser and Helen Fitzsimmons.

Song, "Goodbye Rose Anne"—Clara McPherson.

Recitation—Freda Brown, Jean McCollom, Grace Joyce, Lillian Crowder, Angelina Piccarelli, Julia Dutil.

Scotch Dance—Catherine Gibbons.

Song, "Dollie's Lullaby"—Helen Fitzsimmons, Lena Fraser.

**Amendment to  
Liquor Act Goes**

EDMONTON, April 10.—The legislature completed work Tuesday on the provincial police bill, after considerable delay over the clause which protects detectives who break the liquor act in the work of apprehending violators from conviction themselves. Several of the members in standing agreed J. H. Kennedy, Finch, and G. R. E. Campbell, the Rocky Mountain House, recommended the use of "stool pigeons" who tempt men to break the law, laying money furnished to them by the government for this purpose, and then being protected from the consequences of their actions. George Houlder, leader of the opposition, pointed out that the whole question was in the kind of control exercised over such ex-service men, whether they would be detected in the ordinary sense of the word or "stool pigeons." On the personal promise of Premier Stewart that the strictest code would be used in selecting only experienced men for this work, Mr. Houlder agreed to the passage of the section, and Mr. Campbell, and Mr. Kennedy however, insisted on deletion of the section was adopted by an 8½- and 2½ majority. Incidentally, Premier Stewart admitted that the reason the government had withdrawn the section which permitted the policemen to search anyone for liquor on their own authority was because of objections raised by the Great War Veterans.

**New National War  
Savings Campaign**

An educative campaign in Alberta by Albertans, for Albertans, was launched April 15th throughout the whole province. Its purpose is to tell the people of the province that without thrift Canada cannot rescue herself, and to tell of the wonderful thrifty opportunities offered in the new War Savings stamp.

In three months, under the direction of Mr. Alfred W. St. John, the campaign organizers have made it possible for one to buy stamps almost anywhere at any time throughout the province. Now under the same directorate, baby bond boosters will begin an intensive campaign of education. This will supplement the work of the department of information at Ottawa, and apply the thrifty propaganda locally where it will have the greatest effect.

"Your ship will never come in if you never send it out" is one of the slogans under which organization of the War-Savings campaign are working.

**In the Olden Days**

Among the rules for travellers on the first railway between Manchester and Liverpool, England, were:

1. Any person desiring to travel from Liverpool to Manchester, or vice versa, or any portion of the journey thereof, must, 24 hours before hand, make application to the application to the station agent at the place of departure, giving his name, address, place of birth, age, occupation and reason for desiring to travel.

2. The station agent upon ascertaining himself that the applicant desires to travel for a just and lawful cause, shall thereupon issue a ticket to the applicant, who shall travel by the train named thereon.

3. Trains will start at their point of departure as near schedule time as possible but the company does not guarantee when they will reach their destination.

4. Trains not reaching their destination before dark will not stop at one of the stopping places along the route for the night, and passengers must pay and provide for their own lodging during the night.

5. Luggage will be carried on the roof of the carriage. If such luggage gets off the carriage, the company will not be responsible for loss attaching thereto.

The world do travel.

**NOTICE**

The Municipality of the Village of Lille

NOTICE is hereby given that all persons having claims against the Municipality of the Village of Lille are required to send particulars of such claim to Mr. R. Green, of Blairmore, Alberta, Secretary-Treasurer of the said Village, on or before the first day of May, 1919, and any person who fails to or omits to do so, shall be debarred from his or her right to recover same from the said Village or any other organization that may be liable for the liabilities thereof.

Dated at Blairmore this 26th day of March, 1919.

RAOUL GREEN,  
Sec.-Treas. Village of Lille.

Mar 27.

Alex. McFegan and family, who recently came down from Brune, have taken up residence on Twelfth Avenue.

**Bellevue Happenings**

Haddad Bros. are this week putting on a special sale, see their bills.

11. T. Johnson has invested in a car and is now a member of the lights.

The "Hearts of the World" pictures drew a packed house to the Rex theatre tonight. The pictures were well worth the seeing.

Private Beale, of the Canadian Aviation Corps, arrived here on Tuesday rather unexpectedly. He has been away for upwards of three years.

Private Joseph McLean arrived back from England on Tuesday. Pte. McLean had been a prisoner of war for about three years and is glad to be home after his experiences with the Huns.

Harry Harrison has joined the great majority who believe in taking off out of God's pure atmosphere when opportunity offers. He has purchased what is now known as an automobile and can crawl over the ground at the rate of thirty miles an hour. Here's luck to you, Harry.

A pleasant event took place here on Tuesday evening, when a number of friends of Dr. and Mrs. Mackenzie waited upon them and presented them with tokens of their respect. The presentation to Dr. Mackenzie was made in a very fitting manner by the Rev. Harry Peters, who during his remarks reviewed the many happy incidents that went to make life worth while for the doctor and his family in Bellevue. Mrs. Barlase did the honors on behalf of the ladies present, and assured Mrs. Mackenzie in a uncertain way that the people of Bellevue were sorry to lose a lady who had given so many years to Bellevue and made so many happy occasions throughout the district. Refreshments were served and the party dispersed with the singing of "They are jolly good fellows."

Bellevue were sorry to lose a lady who had given so many years to Bellevue and made so many happy occasions throughout the district. Refreshments were served and the party dispersed with the singing of "They are jolly good fellows."

# Help the Y.M.C.A. Finish its Work For Soldiers

## Help the "Y" Construct the Manhood that will Re-construct Canada

ALL the world now knows that the Red Triangle of the Y.M.C.A. was the "Sign of Friendship" to thousands of your brothers, sons, nephews, cousins and neighbours' boys in the last four and a half years. Wherever the Canadian Soldiers went, the "Good old 'Y'" went too. And now it is coming back home with them!

For the support which has made possible the war work of the Y.M.C.A. we thank you. Your money has been well expended. We have rendered full account.

We ask now your continued sympathy and support for Red Triangle Service for our Soldiers during demobilization, and for Y.M.C.A. work for Canada generally during the Reconstruction period. The Annual Red Triangle campaign will be held throughout Canada May 5th to 9th, 1919. The objective is \$1,100,000.

### For Our Men Returning

For the soldiers and their dependents, returning from Overseas, we have provided as follows:

1. A Red Triangle man on board every ship when it leaves Great Britain, equipped with games, gramophones and records, magic lantern, libraries, newspapers. Where possible, also a piano or an organ. Lectures, concerts, singing songs, instruction re Government repatriation plans, and Sunday Services.

2. Red Triangle comforts and facilities for the men on arrival at ports, with food, tobacco, estates, cigarettes, candies, etc.

3. Red Triangle men on every train to provide regularly free drinks, eatables and cigarettes, organize games and sing songs, and furnish information.

4. Red Triangle free canvas service, information bureau, etc. at each of the 22 Dispersal Centres in Canada.

5. Red Triangle Clubs in the principal cities of Canada in the principal cities of Canada to furnish bed and board at low rates and to be a rendezvous for soldiers.

6. Seventy-five Secretaries to superintend Red Triangle service in Military Hospitals, Camps and Barracks throughout Canada.

7. Tickets entitling soldiers to full Y.M.C.A. privileges for six months at any local Y.M.C.A. (unless otherwise specified).

In addition to our work for the returning soldier, we have been sending men to the fall for the soldiers in Siberia, as well as the work of special secretaries in Northern Russia, Palestine and Poland.

### Y.W.C.A.

For the wives and children of those dependent upon Canadian soldiers, and for Y.W.C.A. work in Canada generally, a sum of \$175,000 from the Red Triangle Fund will be used by the Dominion Council of the Y.W.C.A., which is caring for the soldiers' women, folk, and their little ones on the long journey, from Liverpool to Canada, and is also extending its work for Canadian girls.

For their sake also be generous when you make your contribution.

If Sleeplessness  
Is Your Trouble  
Read This

Sleeplessness is a warning of forces at war within the body—all is not harmony—something needs correction.

Nine times out of ten the body is loaded with the poisons of half digested and half-digested food. "Brain and nerves are irritated, sleep is impossible."

No prescription ever formulated produces the rapid results of Dr. Hamilton's Pills.

They flush every impurity from the body, keep every organ working well, remove the evil effect of lost sleep, and get you in top form again.

Try Dr. Hamilton's Pills today, see how much better you feel, see how much easier it is to face the day's work.

Health is nourished, your nerves feed with new-vital power, vigor and health is sent to every part of your system.

It's because Dr. Hamilton's Pills make each organ do the work Nature expects of it, because it ensures harmony, health and vigor to the system that cut down sleeplessness, languor, depression and nervousness.

Isn't there a reason why you should use Dr. Hamilton's Pills? Sold in 250 boxes by all dealers.

The Channel Tunnel Project

Start Can Be Made Immediately Governmental Reaches Agreement

London.—The prime minister and M. Clemenceau are discussing in Paris details concerning the construction of the channel tunnel. Plans for the work are so far advanced that a start can be made immediately the governments of the two countries reach a complete agreement on the scheme.

A committee of expert engineers is advising the British government, and the points at present to be settled are:

Whether the construction shall be carried out by the government itself as the national shipyards were built—or the work given out to contract.

The situation of the tunnel head upon the English side.

In connection with this second point plans have been drawn up, at the request of the government, by Mr. Tempest, the chief engineer of the South-Eastern and Chatham railway, showing alternative sites for the head of the tunnel, with its railway station, goods and traffic sorting yards, electric generating house, and general offices.

Several places are suggested, the one most favored being between Dover and Folkestone. Another is on the Ramsgate side of Dover, and a third not far from Folkestone. In each case the tunnel head is placed several miles back from the sea. The suggestions include taking advantage of the present borings of the Channel Tunnel company, which extend under the sea for a distance of over a quarter of a mile. The tunnel will not start at Dover itself. On the French side the tunnel head will be near Wissant, between Boulogne and Calais.

A channel tunnel office has been established by the South-Eastern company. Here the plans now before the government were prepared with estimates as to the probable cost time in construction and detailed specifications completed.

The government intends also to seek the co-operation of the present Channel Tunnel company, particularly in reference to the very extensive geological surveys carried out by its officials. It is not considered likely, however, that the work will be made over to the company. The strong opinion is that the tunnel shall be owned and managed by arrangement between the two governments.

Borings will begin on both sides of the channel, and England and France will be responsible for one-half the work and France for the other, and there will be eager competition to see which nation can tunnel the greater distance. Very careful scientific work will be carried out in aligning the tunnel, so that the twin borings will meet exactly. Two circular iron lined tunnels will be run, each with an internal diameter of eighteen feet, and carrying a single line of rail. There will be cross connections at intervals of every 400 yards.

The gradient of the tunnel on the English side will be 1 in 54, gradually lessening until a level track is reached about four miles out. The greatest depth of cover will be at three miles from shore, where 170 feet of solid grey chalk will lie above the tube. In mid-channel, where the sea is 165 feet

deep, the tunnel will be ninety-five feet below the water.

Electric drilling machines, specially made and working at high speed will cut the tunnel. A pilot drill will work in advance of the main drilling machine to give warning of any water-bearing strata that may be ahead. It is intended that the tunnel can be driven and the tube built at the rate of nearly one and three-quarter miles a year. This will make a total distance of three and a half miles a year, cutting from two ends.

Seventy to eight years should, it is stated, see the twin tunnels completed, with connecting railway lines on shore and all the necessary buildings and power stations. That is unless unexpected difficulties are met with.

The number of men on the work, working in the depth of the actual tunnel will not be great, even allowing for four shifts in the twenty-four hours—not more than 200; but a very large number, running in to thousands, will find employment in the making of the connecting land railway lines and with the erection of buildings.

Special attention has been given to plans for ventilating the completed tunnels. Fresh sea air will be pumped down under pressure behind each train. The volume of air required to keep the tunnel fresh will be 45,000 feet on each line travelling at the speed of a light breeze. This constant stream of air will keep the temperature of the tunnel down to a comfortable warmth.

Electric locomotives are to draw the trains through the tunnel, and the underneath channel rolling stock will be specially built. All the woodwork of the passenger trains is to be rendered fireproof, and the windows are to be rubber cushioned so that little and noise can be reduced. The windows, throughout their whole length, will be electrically lighted and constantly patrolled by permanent way men.

Sir Arthur Fell, M.P., of the house of commons tunnel committee, gives the following figures as the cost, etc., etc.

Cost of tunnel, \$100,000,000.

Period of construction, five years.

Fee each way, \$250,000.

Length of tunnel, thirty miles.

Distance under water, twenty miles.

Time in traversing tunnel, forty minutes.

"The tunnel," he said, "would run from a point near Dover to the village of Wissant between Boulogne and Calais. The railway through it would be electrified. There would be two tubes—one for outward and one for the return journey."

"Each tube would be about 150 feet under the sea and it was estimated that without pressure, it would be possible to transport in both directions 30,000 persons and 30,000 tons of goods every twenty hours, leaving four hours a day for repairs, renewals, etc.

"We believe the French government is quite prepared to allow the power operating the railway to be concentrated on this side (so that we could cut off at any time) and to allow us the means at Dover of flooding the tunnel in case of emergency," etc.

Allied Reinforcements Scare Reds

London.—There has been an improvement in conditions at Kandalaksha, at the base of the Kola Peninsula of the White sea side, it is announced in an official dispatch from Murmansk under date of April 5.

A rising of the Finns, Karelians and Bolsheviks had been planned on a large scale, the account states, but the announcements that reinforcements for the allied troops were on the way and that other military preparations had been taken to meet the situation have overawed the leaders for the time being.

Food Controller Beaten

London.—Reuter's Bombay correspondent, under date of March 27th, says:

"Discontent among retail dealers in grain has resulted in rioting. Two thousand dealers armed with bamboo sticks attacking the office of the assistant food controller and assaulting that official.

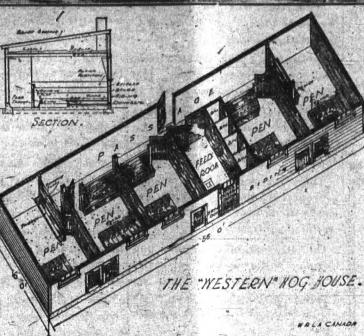

"The police are holding an enquiry. No arrests have been made.

The board of education of Port Arthur has acquired the property at the corner of Red River road and Pine street for a new school site. The property has a frontage of 266 feet on Red River road and 477 feet on Pine street, and the price paid was \$8,950.

Ship Butter to New York

Winnipeg, Man.—Manitoba creamy butter is still being shipped to New York. L. A. Olson, dairy commissioner, reports. A

was received and dispatched on its journey, weighing about 60 cents per pound to the consignee.

Courtesy Western Retail Lumbermen Association Service Department.

Building modern and well equipped farms and outhouses undoubtedly calls for a larger initial investment, but in a very short time better housing pays for itself in better stock that brings greater prices. Growing stock under war conditions has taught the farmer the advantage to be gained from having all his equipment modern—and the lesson once learned is not likely to be forgotten.

Reds Executed in Poland

Charged With Plotting Uprising for Overpowering Weakened Garrison

Warsaw.—Thirty-three Bolsheviks were executed at Pinsk on the eastern frontier of Poland. They were charged with plotting an uprising for the purpose of overpowering the weakened garrison and seizing the city.

An allied commission, composed of British, French and United States representatives, is conducting the investigation of the execution of the condemned and will make a formal report to Pinsk from Warsaw for that purpose.

Some reports which have reached Warsaw place the number of executed Warsaw police as high as 250, but Colonel Francis Frimont, health commissioner of Buffalo, who was in Pinsk at the time for the American Red Cross, fixes the number at 33.

Plan Barns Better

Wisdom of Scientific Building Becoming Apparent

The farmer of yesterday—and there is an occasional one today—had the idea that he, himself, could design a barn good enough for his stock, if it were high bred and high priced. But the old school farmer's lesson and example has the tremendous fallacy of this idea.

One enlightening example may be cited from the many. A certain farmer not long ago invested \$100,000 in a stock herd—splendid animals, every one. His barns, though large, were old fashioned and of his own design. But he figured that they would do, so he housed his herd therein.

The barns were drafty, the ventilation was inadequate, the drains were not properly placed, a hundred other shortcomings were apparent; and yet the stock was housed there. As a result of exposure, and inadequate ventilation, one of the herd contracted tuberculosis, which spread rapidly to its fellows. In less than a year the whole herd had to be condemned and killed—\$100,000 clear loss.

Now, with a market offering higher prices than ever before for live stock, with the demand markedly swollen, louder appeal for first class stock and stock breeding, the wisdom of scientifically planned barns that give animals the maximum of protection and provide for their health and comfort, becomes increasingly apparent.

Stock is subjected to almost as many ailments as humans. Too great exposure will sicken animals just as it sickens human beings; stagnant air will lower vitality in cattle as quickly as in people.

The building of better barns, designed by men who make a study of housing conditions with reference to animals is nothing less than common sense for the farmer. Healthy stock is bringing high prices and will for years to come; but the price of your stock can be kept up only as the health of the animals is maintained. To build your barn scientifically pays handsomely.

If a man can't make good at anything else, he is apt to make good excuses.

Cooking by Electricity

Success Has Impressed Public With Advantages of Method

For the last four years the practical development of electric cooking in Great Britain has been confined by war necessities to public kitchens and the canteens in munition works and other industrial establishments.

This field is, however, so wide, so important, and so exacting in itself that the success of cooking by electricity for large numbers of people has impressed the public deeply with the advantages of this method. During this period, moreover, the domestic electric cooker has not been altogether neglected.

Improvements in design have been introduced by British makers, and the new types now being put on the market represent a distinct advance in Great Britain.

It should not be forgotten that the application of electricity to cooking was more scientifically studied in Great Britain than anywhere else.

It was in Great Britain that the experiments were made which proved that the electric oven, when properly designed and used, reduced the shrinkage of meat in roasting and so rendered the process much more economical and much more hygienic.

Similar experiments in other kinds of cooking have established the claim that electricity produces more digestible and wholesome meals than any other source of heat, and in so much concern, this is now being paid.

On national health this claim is not likely to be overlooked.

In electric heating also British engineers have been in the foreground with designs which achieve the most efficient results.

Here, the problem ranges from the domestic electric fire through many forms of industrial heating (such as glue pots, japping ovens, drying ovens, and so on) to the electric furnace for the melting and refining of steel, brass, and other metals.

A Kidney Remedy

Kidney troubles are frequently caused by badly digested food which overtaxes these organs to eliminate the irritant acids formed. Help yourself to proper food. Take 15 to 20 drops of Extract of Roots, sold as Mother Schulz's Cervative Syrup, and your kidney disorder will promptly disappear. Get the genuine.

Saved Many Lives

Energetic Officer Defended Bedouins By Bluff

Cairo.—Refugees from Medinet El Fayum state that they owe their lives to the initiative and energy of the officer commander, who quickly assembled all Europeans in the National Bank compound, which was converted into what resembled a formidable fort on both sides and looked so menacing with dummy defences that the Bedouins did not attack but made an onslaught on the fourth and apparently weak side, where the machine guns were used in the most effective manner, repulsing the attackers and causing 400 casualties.

For every tree chopped down in Norway the law requires three saplings to be planted.

The man who goes to the bottom of things is usually the man who gets to the top.

CHILDREN NEED HELP

Spanking doesn't cure bed-wetting—the trouble is due to weakness of the internal organs. My successful home treatment will be found helpful. Send no money, but write me today. My treatment is equally successful for adults, troubled with urinary difficulties.

MRS. M. SUMMERS, Box 42, Windsor, Ont.

# Just Caught in Passing

British Columbia has one million men.

The life of the Newfoundland house has been extended from May to September 30th.

W. L. Ouimette has purchased the gents' furnishing business of C. Gower at Coleman.

D. Lewis has purchased the Rossie poolroom on Victoria Street, just along to A. McLeod, was killed by a passing train today.

John R. Palmer, solicitor, has returned from overseas, has resumed his practice in Lethbridge.

A deputation from the Crown Ness Pass National Highway Association left for Edmonton on Tuesday night.

A quickening of interest among manufacturers in the possibilities of export trade is reported by the Canadian Trade Commission.

Mrs. Mary Stewart, mother of Brig.-General Stewart, died at Lethbridge on Tuesday morning at the age of sixty-seven years.

A large number of people from Blairmore and Bellevue attended the lecture delivered by Capt. DeNeve at Coleman on Monday night.

H. H. Adderley has resigned the position of manager of district branches for P. Burns & Co. Mr. O'Neill, of Nelson, is his successor.

Harry Hawker, Australian aviator, and Capt. Raysham, English, start this week on a wager flight across the Atlantic from Newfoundland.

Edward Stellen, Russian, believed to be the man wanted for the murder of a man in the States, was captured by mounted police near

Messrs. McDermott and Morgan, Chevrolet agents, of Pincher Creek, spent several days in the Pass during the week, demonstrating the good features of their cars.

Under the greatest possible rules of secrecy as to how it is done, the Marconi operators in Glace Bay, C. B., and those in Clifden, Ireland, are conversing at present.

The students of Canadian universities are raising a fund to bring native Y.M.C.A. secretaries from India, China and Japan to study Y.M.C.A. methods in Canada.

Walter Howe has purchased the tobacco and refreshment business of the old Handley stand from Emperor Picarello, and is now proprietor. The place is being neatly fitted up with booths, soda fountains, etc., and will attract trade.

A real hard times dance will take place in the Hillcrest opera house on the night of Wednesday, April 30th, under the auspices of the Great War Veterans Association.

Crows' Nest Branch. Royle's five-piece orchestra will furnish music.

Under the greatest possible rules of secrecy as to how it is done, the Marconi operators in Glace Bay, C. B., and those in Clifden, Ireland, are conversing at present.

Some of them are already in use, and are said to have been the cause of Caton taking to firearms for his own preservation and protection.

It is said that the first appearance of a tank has mounted on the brow of one of our most estimable young ladies set Caton a-thinking.

If peace terms are to be signed soon, there should be steps

taken to have all instruments of war dismantled, but God help the person who undertakes to dismantle some of these, much as they may be justified. And who can blame a person seeing an acrobatic bat from feeling soar.

Balloting on the O. B. U. proposal is now going on in the four western provinces and will continue until May 31st. The question

asked on the ballot paper is, "Are you in favor of severing your affiliation with your present international craft and becoming part of One Big Industrial Organization of all workers?"

The stronghold of the O. B. U. movement is among the members of District 18 U. M. W. of A., of whom, it is claimed, 75 per cent. will vote in favor of the plan.

As there are over 4500 members of the union in Alberta alone, it appears certain that, in pointed numbers at least, this province will

show a majority in favor of breaking away from the international.

However, there is developing a great deal of opposition to the O. B. U. scheme in the other crafts, for that very reason.

It is claimed that the miners by their numbers

would absolutely wipe out the individuality of the smaller unions

in the west, and craft unions

would be gone. Charges are made

by those favorable to the O. B. U.

that international officers, afraid of

losing their jobs, are to a man

against breaking away from international affiliations, and strong arguments are being presented to the

rank and file on these grounds.

The golf links are now in operation.

Mrs. H. H. Griesbach arrived on Sunday morning last from Edmonton.

"Alpheus" Harbour and wife are visiting with Mr. and Mrs. A. Beck at Coleman.

A valuable bull terrier pup, belonging to A. McLeod, was killed by a passing train today.

### Buy War Savings Stamps

A convention of the G.W.V. A. is being held in Calgary this week.

Q.M.S., R. W. Harold Pinkney is expected to arrive from overseas this week end.

Mrs. H. Gavelin returns from Granum this week end to spend Easter at home.

It is expected that sawing operations will be resumed at McLaren's mill early next month.

**NURSE**—A military nurse, just arrived from Scotland, open for engagement. Apply to Miss N. Hillcrest, April 17.

**WANTED**—To buy 50 or 75 hens. Apply by phone or personally to Eastern Star Lodge, Blairmore, Mrs. E. Kidd.

**FOR SALE**—Hatching eggs from winter laying strain, pure breed White Wyandottes. Price \$1.50 setting. —A. J. Smith, Blairmore.

The mighty Amazon is 200 miles wide at its mouth; it is 3,500 miles long—a thousand miles more than the ocean trip from Halifax to Liverpool, England—a distance as great as from Sydney, C. B., to Vancouver, C. B.—and a drama 2,500,000 square miles of territory.

Victor Hugo tells us, in that incomparable feast of beauty and ugliness, *Les Misérables*, that "the beautiful is as awful as the ugly, perhaps more so." Now that the war is over, cannot we make an effort to make this town look less like a slag dump. For every vegetable we sow cannot we also sow some flowers and make our gardens a delight to every beholder?

Bakers will be interested to know that one of the benefits instituted by the Canada Food Board under the licensing system is to be continued as a private undertaking. This is the educational side of baking, in which an effort was made to improve the standard of bread-making by applying latest knowledge of processes and methods. Mr. W. H. Linn, late chief of the bakery section of the Food Board, is now consulting and advisory expert at Ottawa, and will deal with any trade difficulties.

All Oddfellows and Rebekahs are reminded of the annual church parade to be held on Sunday afternoon. Members of both organizations will assemble at the Oddfellows' hall at 2:30 p.m. preparatory to forming in procession and marching to the Union church, where they will be addressed by the Rev. W. T. Young. A record turnout is expected, members from Coleman and Bellevue and visitors participating. The Coleman town band will lead the procession on the route march. At the church mass will be rendered by the Union orchestra.

It's amusing to hear certain members of the town council, who are also prominent in lodge lodges, forget themselves as they address His Worship the Mayor as "Noble Grand." Unfortunately we are not sufficiently regular in our attendance at lodge to say whether the presiding officer there is ever addressed as "Your Worship," or not. The limit was reached one night recently when one of the councilors went through some motions when talking to the mayor that might be understood and look alright behind the guarded portals of some secret society, but looked strangely fantastic in a public meeting. Next thing we know we will be having to give the password through the hole in the window to get into the council chamber, and new members will be required to take the oath before they will be qualified to take their seat. At that it might not be a bad idea if the mayor would stand for it.
